

PROJECT 10073 RECORD CARD

1. DATE 16 Dec 1963	2. LOCATION 40.00N 174.54W (Pacific)	12. CONCLUSIONS
3. DATE-TIME GROUP Local _____ GMT 17/0505Z	4. TYPE OF OBSERVATION <input type="checkbox"/> Ground-Visual <input type="checkbox"/> Ground-Radar <input checked="" type="checkbox"/> Air-Visual <input type="checkbox"/> Air-Intercept Radar	<input type="checkbox"/> Was Balloon <input type="checkbox"/> Probably Balloon <input type="checkbox"/> Possibly Balloon <input type="checkbox"/> Was Aircraft <input type="checkbox"/> Probably Aircraft <input type="checkbox"/> Possibly Aircraft <input type="checkbox"/> Was Astronomical <input type="checkbox"/> Probably Astronomical <input type="checkbox"/> Possibly Astronomical <input type="checkbox"/> Other UNIDENTIFIED <input type="checkbox"/> Insufficient Data for Evaluation <input checked="" type="checkbox"/> Unknown
5. PHOTOS <input type="checkbox"/> Yes <input type="checkbox"/> No	6. SOURCE military	
7. LENGTH OF OBSERVATION 15 seconds	8. NUMBER OF OBJECTS one	9. COURSE East
10. BRIEF SUMMARY OF SIGHTING White blinking light in flight from West to East under observation from military a/c. Duration lasted 15 seconds. Alt of obj unknown. Rapid transit across sky.		11. COMMENTS Statement that obj had rapid transit across sky indicates that obj traveled through a considerable arc. Reports of this nature listing alt as unknown are interpreted to mean that the obj is at considerable height, usually in the atmosphere, at least they are a considerable distance above the reporting a/c. Such items as intensity and manner of disappearance are omitted from the CIRVIS format. Were these items included there is a slight possibility that an evaluation might be made, however, a light blinking a few times a second crossing a considerable segment of the sky in 15 sec when it is assumed that the obj is far away does not fall into any known category of sightings. Case listed as UNIDENTIFIED.
